

A2500 STANDARD NOZZLE A2501 PREPAY NOZZLE

Materials

Body & Spout: Aluminum
 Lever & Guard: Thermoplastic
 Seals: Nitrile & Viton®
 Scuff Guard: Vinyl

Guide Specification: Underwriters Laboratories approved fuel dispensing nozzle designed for use on industrial and retail fuel dispensing equipment. Mechanical feature detects a full tank condition and shuts off additional flow automatically. Hold open latch assembly facilitates hands-free operation. Cast aluminum body with Nitrile and Viton® seals. Inlet available in 3/4 inch and 1 inch sizes; NPT and BSP. Dispensing spouts available in 13/16 (unleaded) and 15/16 (leaded) configurations. Weighs 2.4 lbs. The A2501 prepay nozzle is designed for use on pre-pay self-service dispensers and features a no-pressure no-flow safety device.

Viton® is a registered trademark of DuPont Dow Elastomers.
